Plan ahead to ensure your installation is a great success! Check the latest information on these products and have the following items available prior to installation.

- Verify power dedication and check for power stability. The MX-3070N/3570N/4070N Document Systems require AC 100-127 VAC, 60 HZ power source, draw 12 Amp current (requires 15 Amp circuit breaker).

- Confirm that you have the latest firmware available to upgrade your MX-3070N/3570N/4070N Document Systems.

- Some accessories require a product key for operation. You should obtain the accessory Application Code Number, machine's serial number and register online prior to arrival.

- Verify that the customer has enough supplies on-hand to complete a large rush job. After-hours printing and/or holiday work may take place following an installation.
